Norwalk, CT 06856-5125

Dear Norwalk Residents,

We are excited to let you know about an opportunity to reduce your utility bills, make your home more comfortable, and help make a cleaner environment. The City of Norwalk, Connecticut Green Bank, and PosiGen have teamed up to offer you affordable rooftop **solar and energy efficiency** upgrades for your home through a program called *Solar for All*. **Solar for All Norwalk** is a city and community supported initiative to reduce the barriers to going solar.

What is the *Solar for All* initiative offering? This is a 20-year solar lease program that covers the full cost of installing, maintaining, and insuring the solar system. There is no money down, no credit score requirement and no equipment to buy. No money out-of-pocket until all energy efficiency improvements had been made and the solar system is installed and producing energy.

How is this program different? This opportunity means that you are financially approved for a rooftop solar system lease and efficiency upgrades regardless of your credit score. With solar and energy efficiency upgrades, you are guaranteed to save money in the first year of your lease. Your fixed monthly payment covers all costs of the solar system, the energy upgrades, monitoring, maintenance, and any needed repairs during the lease.

Learn more at an upcoming event listed below. Come hear more about the program and schedule a free home and utility bill assessment to see if this clean energy program is right for you and your home! If you're ready for direct assistance, please call 844-787-6527 or visit www.SolarForAllConnecticut.com

Sincerely,

Harry W. Rilling
Mayor
