Branford's *Solar For All* Program Extended

Local Solar and Energy Efficiency Program Deadline Pushed to December 31st!

Branford is pleased to announce the "Solar for All" program is being extended for residents. Launched in April, [Connecticut's Solar for All Program](#) makes solar and energy efficiency upgrades more affordable to all Eversource homeowners through a partnership between the Connecticut Green Bank and PosiGen Solar.

PosiGen's lease program covers the full cost of installing, maintaining, and ensuring the solar system, with no minimum income or no credit score requirements, and no equipment to buy. The *Solar for All Branford* initiative held kickoff webinars to introduce the program and answer questions- recording [here](#). There has been high interest with over 30 Branford homeowners reached and over a dozen in process of going solar! As a result, the program is being extended until December 31st.

The [nationally-recognized](#) program combines a solar lease with energy efficiency upgrades to lower the energy burden on participating households. PosiGen's lease program offers an extremely affordable opportunity to go solar and **provides a production and savings guarantee.**

The Town of Branford invites you to attend the following events:

- **Solar for All Homeowners Workshop at the Community House, 46 Church Street, Branford**
December 7th, 4 pm to 6 pm.
- **Information Table at the Stony Creek Brewery, 5 Indian Neck Avenue, Branford**
December 4th and 11th from 2 pm to 4pm.

Get started by contacting 844-787-6527 or visiting www.SolarforAllConnecticut.com
